

SplitSync — Wireframes v3 (Web app)

Low-fidelity desktop/web layout — sidebar nav + main panel. Updated to match the SRS: users can belong to multiple spending groups, expenses support equal / unequal / percentage splits, settlements are one-sided records (no payment confirmation), recurring templates carry real scheduling, and group management is restricted to the group's creator.

- ☐ placeholder content
- ☐ action needed / pending state
- ☐ confirmed / settled state
- ☐ design note tied to SRS requirement

NOTE

Auth is delegated to a third-party IdP (email/password or Google) per UC-01 — SplitSync never stores credentials directly. No sidebar here; this is pre-auth.

Owed \$101.66

Bali Trip 2026

3 members

You owe \$12.00

+ Create group

Priya · Sign out

NOTE

Replaces the single-house model — a user can belong to many spending groups (UC-03). Each card shows a rolled-up balance; green = you're owed, amber = you owe.

3 Create a spending group

spplitsync.app/groups - new group modal

Create a spending group

GROUP NAME

e.g. Flat 4B

You'll be recorded as the creator and first member.

Create group

NOTE

Creator is set automatically on creation (FR-GROUP-01) — there's no separate "role" picker, ownership is resource-based.

You are owed

\$101.66

Dev Kapoor

Owes you \$61.66

Shanti Rao

Owes you \$40.00

Priya · Sign out

NOTE

Balance shown is pairwise, only vs. members involved with you (UC-04) — balances between two other members that don't involve you are intentionally excluded.

5 Add expense

spplitsync.app/groups/flat-4b - add expense modal

Add expense

EXPENSE NAME

e.g. Internet

AMOUNT

\$64.99

DATE

Aug 18, 2026

NOTES (OPTIONAL)

Fixed monthly plan

SPLIT METHOD

Equal

Unequal

Percentage

SPLIT BETWEEN

☐ Priya (you)

50%

☐ Dev Kapoor

25%

☐ Shanti Rao

25%

Percentages total 100% of 100%

RECEIPT (OPTIONAL)

Attach receipt or photo

Save expense

NOTE

FR-EXP-05: split method is equal / unequal / percentage, validated so unequal amounts sum to the total and percentages sum to 100%. Payer is always the member who added the expense.

6 Record a settlement

spplitsync.app/groups/flat-4b - settlement modal

Record a settlement

This records that you paid someone — SplitSync doesn't move any money.

PAID TO

Dev Kapoor

AMOUNT

\$60.00

DATE

Aug 18, 2026

Save settlement

NOTE

Deliberately one-sided (UC-06) — no counterparty confirm/dispute step. Only the member who recorded the settlement can edit or delete it afterward; the payer is always its creator.

7 Add recurring expense

spplitsync.app/groups/flat-4b - recurring modal

Add recurring expense

EXPENSE NAME

e.g. Rent top-up

AMOUNT

\$150.00

REPEATS

Weekly

Monthly

Custom interval

DAY OF MONTH

1

Clamped to the last day of shorter months.

START DATE

Jul 9, 2026

END DATE (OPTIONAL)

Members

Priya (you)

Creator

Dev Kapoor

Shanti Rao

Member's name

Add member

Delete this group

Removes the group and all its data for every member, regardless of unpaid balances.

Delete group

NOTE

Add/remove member, rename, and delete are creator-only (FR-GROUP-02–05), enforced via resource ownership rather than a separate role entity. Removing a member with an unpaid balance is blocked (FR-SYS-02). A non-creator sees this panel replaced with a read-only note instead.

9 Activity

spplitsync.app/activity

SplitSync

Groups

Activity

Settings

Activity

Every expense and settlement across your groups, newest first.

Dev added "Villa (3 nights)" — \$540.00 in Bali Trip 2026

Aug 13

You paid Dev — \$60.00 in Flat 4B

Jul 29

Shanti added "House groceries" (weekly) — \$46.20 in Flat 4B

Aug 4

Marco paid Dev — \$180.00 in Bali Trip 2026

Aug 16

NOTE

UC-09: expense events show regardless of whether you're a party to them; settlement events only show if you're the payer or recipient. Ordered by occurrence, most recent first, across all your groups.

Your account and notification preferences.

Email reminders for unpaid balances

Sent once daily at a fixed time while you have an unpaid balance in any group.

On

Delete account

Permanently removes your personal info and anonymizes your history. Blocked while you have an unpaid balance in any group.

Delete my account

NOTE

FR-NOTIF-01 / FR-SYS-01: reminder frequency is fixed system-wide, not user-configurable — only on/off is exposed here. FR-AUTH-04: account deletion anonymizes historical references rather than deleting records outright, and is blocked while any group balance is unpaid.

SplitSync — wireframes v3 (web) - low-fidelity, structure & flow only - generated to match the SRS draft and FR/NFR/traceability tables.
